

SMD LED Downlights

Charming

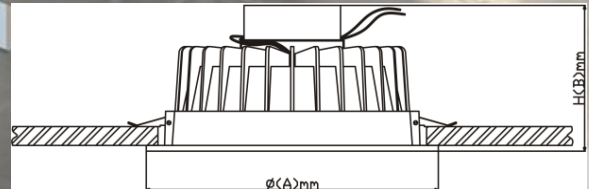

Our SMD LED downlight has a colour temperature of 6000K(Cool White) and 2800K (Warm White) and shines just as bright as a halogen bulb but uses ten times less the power!

It is available in various sizes and wattages, see details below. It is ideal for general purpose room lighting and other applications for shops, bars, offices, and show rooms. It is constructed in high quality aluminium with good build quality, offering extended reliability for long life.
